

MEASURING TAPE WITH VIEWING WINDOW

VIFMJ3

In addition to the automatic brake, they stand out for their viewing window, which allows you to easily read the exact measurements without having to use calculations and avoid bending the tape to obtain the measurement. Versatile, these measuring tapes are useful for a wide variety of applications, as well as being compact and easy to transport.

Key features

> Viewing window for direct and precise measurements;
> Clear scale: Quick and easy reading, even in dim light;
> Automatic brake: Guaranteed stability during use;
> Precision: Ideal for detailed measurements in short and medium distances;
> Compact and portable: Lightweight, easy to carry and practical for any environment;
> Easy to use: Intuitive and ergonomic design for all users;
> Instant lock: Keeps the tape in the desired position, guaranteeing control and precision.
