

2-PRONG HEART SHAPED DOUBLE HOE

VI0004

The VITO heart-shaped hoe with 2 prongs is built from tempered steel, ensuring durability and strong resistance to wear. The heart-shaped blade allows efficient soil movement, while the dual prongs significantly improve soil penetration and breaking of compacted ground. Ideal for weeding, soil aeration, bed preparation and working in tough or root-filled terrain.

Key features

- > Tempered steel construction for long-lasting durability
- > Heart-shaped blade for controlled soil work
- > Two prongs for enhanced penetration and loosening
- > Suitable for weeding, cultivation and soil preparation
- > Robust tool for demanding gardening and farming tasks
- > Fits 32 mm handles

Specifications

Diameter	32 mm
Material	Hardened steel
Handle	VI4059
Number (Nº)	2
Size	100 x 250 mm
Weight	0,35 kg
