

3-PRONG DOUBLE HOE

VI0005

The VITO heart-shaped hoe with 3 prongs is engineered for demanding soil work, including deep loosening, weed removal and cultivation. Made from tempered steel, it delivers high durability and resistance to wear, even in hard or compacted ground. The heart-shaped blade enables smooth soil movement, while the triple prongs greatly increase penetration and aeration efficiency, making it ideal for gardens, vegetable beds and small agricultural plots.

Key features

- > Tempered steel construction for long-lasting durability
- > Heart-shaped blade for efficient soil work
- > Three prongs for superior penetration and deep loosening
- > Ideal for gardening, farming and soil preparation
- > Strong force transfer reduces user fatigue
- > Fits Ø 32 mm handles

Specifications

Diameter	32 mm
Handle	VI4059
Material	Hardened steel
Number (Nº)	2
Size	100 x 260 mm
Weight	0,39 kg
