PROFESSIONAL SPRAYER 1.5L

VIPUPRO15

VITO`s 1.5 Litre PRO Sprayer (VIPUPRO15) is a professional solution for spraying disinfectants and neutral products and is ideal for use in a wide range of sectors, from construction to industrial settings. This product, suitable for professional and demanding applications, has a reinforced plastic construction and UV protection, which makes it resistant to wear and tear caused by exposure to the sun and durable. With integrated Viton O-rings, the sprayer offers a reliable, long-lasting seal as well as chemical and thermal resistance against most solvents and disinfectants. In addition, it is equipped with a position lock and a safety valve to ensure comfort and safety when working.

Key features

- **High resistance to solvents and disinfectants;**
- **Viton O-rings that ensure a reliable seal;**
- **Safety guaranteed by the position lock and integrated valve.**
