

HEART-SHAPED DOUBLE HOE

VI0045

The VITO heart-shaped hoe with a pointed tip is made from tempered steel, ensuring high strength and durability in gardening and farming tasks. Its heart-shaped blade allows controlled soil movement, while the sharp tip improves penetration in compacted soil and aids in effective weed removal. Ideal for creating small furrows, aerating soil and preparing garden beds, it features a 31 mm socket compatible with standard handles for efficient force transfer and comfortable operation.

Key features

- > Tempered steel construction for long-lasting durability
- > Heart-shaped blade for controlled soil leveling
- > Sharp pointed tip for enhanced penetration
- > Suitable for horticulture, gardening and light farming
- > Fits Ø 31 mm handles
- > Efficient force transfer and reduced user fatigue
- > Robust design for intensive outdoor use

Specifications

Diameter	31 mm
Material	Hardened steel
Handle	VI4059
Number (Nº)	2
Size	65 x280 mm
Weight	0,33 kg
