

SPANISH-MODEL SCYTHE HANDLE

VI0054

The Scythe Handle Spain is made of tempered steel, providing greater durability and resistance to wear. With a length of 1.38 meters and a weight of 1.3 kg, it offers excellent ergonomics and efficiency in cutting operations, making it easier to handle demanding tasks of land clearing and maintenance. Its curved and symmetrical design allows use by both right-handed and left-handed individuals without major adjustments, ensuring a natural cutting motion regardless of the user's dominant hand. Designed for precise cuts in dense vegetation, this robust handle is ideal for use in agricultural and forestry areas. The tempered steel construction guarantees a long service life, making it an excellent choice for professionals and gardening and landscaping enthusiasts seeking durability and performance in their tools.
