

CANCELA HOE

VI0430

The VITO Cancela hoe, made from tempered steel, is designed for tough agricultural tasks, offering high durability and resistance to wear. Its traditional blade shape allows efficient cutting, trenching and soil turning, making it suitable for both farming and gardening. The reinforced ring socket ensures a strong and stable connection to the handle, improving control and reducing user fatigue.

Key features

- > Tempered steel for superior durability
- > Reinforced blade for soil breaking and trenching
- > Strong ring socket for secure handle attachment
- > Excellent power transfer
- > Suitable for farming, horticulture and garden maintenance
- > Performs well in compact and rocky soils

Specifications

Diameter	32 mm
Handle	VI4015
Material	Hardened steel
Size	90 x 150 mm
Weight	0,40 kg

Variants

Reference	Diameter	Handle	Material	Size	Weight
VI0430	32 mm	vi4015	hardened steel	90 x 150 mm	0,40 kg
VI0431	32 mm	vi4015	hardened steel	110 x 170 mm	0,49 kg
VI0432	32 mm	vi4015	hardened steel	130 x 185 mm	0,58 kg
VI0433	37 mm	vi4052	hardened steel	145 x 200 mm	0,80 kg
