

2-FLAT PRONG GIRONA DOUBLE HOE VI0460

The VITO Girona double-peta hoe, made from tempered steel, is designed for efficient soil loosening, row cleaning and targeted weeding. The double-peta configuration increases soil penetration capability and improves overall effectiveness. Its narrow blade allows precise work between plants, making it ideal for horticulture, gardening and greenhouse applications.

Key features

- > Tempered steel for long-lasting durability
- > Double-peta system enhances soil penetration
- > Perfect for horticulture and garden maintenance
- > Narrow blade for precision work
- > Strong socket provides stable force transfer
- > Lightweight and easy to handle

Specifications
