

BUSH SCYTHER

VI1410

The VITO brush-cutting blade is made from tempered steel, offering high durability and cutting performance. Designed to clear dense vegetation and tall grass, its curved blade ensures smooth, efficient cutting motions.

Key features

- > Tempered steel for superior durability
- > Curved blade for efficient vegetation cutting
- > Ideal for agricultural and forestry maintenance

Specifications

Handle	VI4800
Material	Hardened steel
Size	440 x 135 mm
Weight	0,67 kg
