

DOUBLE-EDGED BILLHOOK

VI1660

The double edge pruning hook is manufactured from tempered steel, ensuring durability and consistent cutting performance. Its dual cutting edges provide better control and allow clean cuts on branches and dense vegetation. This tool is suitable for vineyards, orchards, tree maintenance and land clearing, offering a reliable solution for regular agricultural tasks.

Key features

- **Tempered steel for long-lasting use**
- **Double edge design for improved cutting control**
- **Suitable for pruning and branch cutting**
- **Stable handling during operation**
- **Robust construction for regular outdoor use**

Specifications

Material	**Hardened steel**
Number (Nº)	**2**
Size	**240 x 190 mm**
Weight	**490 g**
