

WICKER BILLHOOK

VI1672

The wicker pruning hook is manufactured from tempered steel, providing durability and reliable performance in manual pruning tasks. Its curved blade allows accurate, controlled cuts on thin branches and light vegetation. It is suitable for vineyards, orchards, shrubs and general agricultural maintenance, offering a practical solution for regular outdoor work.

Key features

- > Tempered steel blade for durability
- > Curved profile for precise pruning
- > Suitable for thin branches and light growth
- > Controlled cutting action
- > Robust design for regular agricultural use

Specifications
