

MACHETE

VI6000

This agricultural machete features a hardened steel blade, designed for efficient cutting of dense vegetation such as brush, reeds and thick growth. It offers good impact resistance and reliable cutting performance during demanding tasks. Its blade shape allows wide and controlled cutting motions, making it suitable for land clearing, farm maintenance and rural work.

Key features

- > Hardened steel blade
- > Suitable for dense vegetation cutting
- > Consistent cutting performance
- > Ideal for agricultural and rural use
- > Robust construction

Specifications

Dimensions	400 x 115 x 550 mm
