

PORTUGUESE MACHETE 16" VI6000P

This Portuguese machete features a hardened steel blade, designed for efficient cutting of dense vegetation such as brush, reeds and thick growth. It provides reliable cutting performance and good impact resistance. Its traditional blade shape allows wide, controlled cutting strokes, making it suitable for land clearing and agricultural maintenance.

Key features

- > Hardened steel blade
- > Suitable for dense vegetation cutting
- > Consistent cutting performance
- > Ideal for agricultural and rural use
- > Robust construction

Specifications

Dimensions	400 x 120 x 565 mm
