

DIAGONAL CUTTING PLIER

VIACOP160

Diagonal cutting pliers manufactured from chrome vanadium steel, designed for cutting wires, cables and electrical conductors in installation, maintenance and electrical work. The diagonal cutting edge provides precise and efficient cutting performance, allowing easier operation in confined or hard-to-reach areas. Chrome vanadium steel construction ensures high mechanical strength and durability during regular use. PVC coated handles provide improved grip and user comfort.

Key features

- > Chrome vanadium steel construction
- > Diagonal cutting edge for precision
- > Suitable for wires and conductors
- > PVC coated handles for better grip
- > Durable tool for electrical work

Specifications

Handle	PVC
Material	Chrome vanadium steel
Size	160 mm

Variants

Reference	Size
VIACOP160	160 mm
VIACOP180	180 mm
