

## KNIFE SHARPENER WITH SUCTION CUP

### VIAFB

Knife sharpener designed to restore the cutting edge of blades used in domestic or professional kitchens. Its compact design allows quick and simple use during regular knife maintenance. Equipped with a suction base that secures the sharpener to smooth surfaces, providing stability during the sharpening process and reducing the risk of slipping. The ergonomic design helps guide the blade through the sharpening slot, enabling a controlled and consistent sharpening action.

### Key features
