

## FLAT NOSE PLIERS 150MM

### VIAPC150A

The VITO Flat-Nose Pliers provide excellent precision and control when gripping and manipulating small components. Their slim, flat tips reach tight spaces, making them essential for technical and professional applications. Built from high-strength steel and equipped with grooved jaws for improved grip, they ensure secure handling. The ergonomic, non-slip handle enhances user comfort during extended use. Ideal for electricians, locksmiths, assembly technicians, electronics specialists and maintenance tasks.
