

## WELDING LOCKING PLIERS 275MM VIAPS275

Designed to withstand the demands of professional welding, these pliers allow you to hold metal parts firmly and precisely, ensuring that they are immobilised while you work. In addition, the blade, made from chrome molybdenum steel (Cr-Mo), ensures durability and resistance to high voltages and temperatures.

### Key features

- > Firm hold, ensuring stability;
- > Made from Cr-Mo steel, it guarantees resistance to high voltages and temperatures.
