

ATS FOR 12KVA DIESEL GENERATOR VIATSGD12

Designed for use with VITO`s 12kVA Dual Power Three-Phase Diesel Generator, the ATS manages the automatic transfer of power in the event of an interruption or failure in the main power supply. It is suitable for applications where uninterrupted power supply is essential, such as workshops, technical facilities, commercial premises or professional environments. This equipment enables the generator to be integrated into a more functional emergency power supply system, reducing the need for manual intervention. Furthermore, the 12kVA power rating makes it suitable for use with the specified generator, ensuring a response tailored to the system`s requirements.

Key features

- > Automatic energy transfer, reducing manual intervention;
- > Compatible with VITO`s 12kVA Dual Power Three-Phase Diesel Generator;
- > 12 kVA power, adjusted to the compatible power supply system;
- > Suitable for emergency solutions;
- > Professional use, indicated for energy support in power outages.

Specifications

Compatible with generators	VIGD12TDP
Dimensions	360 x 250 x 140 mm
Product weight	4,50 Kg
Weight with packaging	5,70 Kg
Fuel	Diesel
Power	12KV _a
