

COMBINATION PLIER VDE 1000V VIAUI160A

VDE insulated combination pliers designed for gripping, bending and cutting wires and conductors in electrical installation and maintenance work. Manufactured with a chrome vanadium steel body to provide high mechanical strength and durability in professional use. The multifunction head allows multiple operations with a single tool. The cutting edges are induction hardened to ensure precise cutting performance and improved wear resistance when working with electrical conductors. Bi-material insulated handles improve ergonomics, grip and control. Certified for safe use in electrical applications up to 1000V according to VDE standards.

Key features

- > VDE 1000V certified insulation
- > Chrome vanadium steel construction
- > Induction hardened cutting edges
- > Bi-material insulated ergonomic handles
- > Suitable for gripping, bending and cutting wires

Specifications

Electrical insulation	1000 V
Handle	Insulated bimaterial
Material	Chrome-vanadium steel
Size	160 mm (6.1/4")

Variants

Reference	Size
VIAUI160A	160 mm (6.1/4")
VIAUI180A	180 mm
