

SELF-PRIMING JET PUMP 1100 W VIBAF1100A

The 1100W self-priming electric pump is designed for clean water intake, lifting and pressurization, suitable for irrigation systems and domestic water supply. Its cast iron pump body ensures durability and stable operation. The self-priming function allows easy start-up, even when the pump is installed above the water level, making it suitable for wells and tanks. The anti-corrosion treatment helps extend service life.

Key features

- > Suitable for clean water applications
- > Self-priming operation
- > Ideal for irrigation and household supply
- > Durable cast iron construction
- > Stable continuous operation

Specifications

Anti-rust treatment	Yes
Body	Cast iron
Dimensions	200 x 500 x 245 mm
Inlet - threaded	1,5"
Max. liquid temperature	35° C
Max. manometric height	55 m
Max. particle size	0,2 mm
Maximum flow rate	4800 L/h
Maximum immersion depth	9 m
Outlet - threaded	1"
Packaging dimensions	500 x 250 x 290 mm
Pressure	5,7 bar
Product weight	24,5 Kg
Rated power	1100 W
Sound power level (LWA)	75 dB
Supply voltage	230 V 50 Hz
Watertightness	IP54
Weight with packaging	26 Kg
