

SELF-PRIMING JET PUMP 750 W VIBAF750A

The 750W self-priming electric pump is designed for clean water intake, lifting and pressurization, suitable for household water supply and small irrigation systems. Its cast iron pump body ensures durability and stable operation. The self-priming function allows easy start-up even when installed above the water level. The anti-corrosion treatment helps extend service life in outdoor installations.

Key features

- > Suitable for clean water applications
- > Self-priming operation
- > Ideal for domestic irrigation
- > Durable cast iron construction
- > Reliable performance

Specifications

Anti-rust treatment	Yes
Body	Cast iron
Dimensions	180 x 410 x 200 mm
Inlet - threaded	1"
Max. liquid temperature	35° C
Max. manometric height	40 m
Max. particle size	0,2 mm
Maximum flow rate	3000 L/h
Maximum immersion depth	9 m
Outlet - threaded	1"
Packaging dimensions	450 x 210 x 235 mm
Pressure	4 bar
Product weight	11 Kg
Rated power	750 W
Sound power level (LWA)	70 dB
Supply voltage	230 V 50 Hz
Watertightness	IP54
Weight with packaging	12 Kg
