

400W PLASTIC SUBMERSIBLE DIRTY WATER PUMP

VIBAS400

The 400W submersible dirty water pump is designed for draining water containing solid particles, making it suitable for basements, pits, tanks and occasional flooding. Its durable plastic body ensures resistance and easy handling. The built-in float switch allows automatic operation according to water level, preventing dry running. It provides a maximum lifting height of up to 5 metres, suitable for domestic and light-duty applications.
