

20V

20V 2.0AH STARTER KIT: 20V 2AH BATTERY AND FAST CHARGER

VIBCB2CS

One of the greatest advantages of the common battery range is its compatibility with a wide variety of machines. The 20V batteries can be used in tools such as drills, hammers, angle grinders, grass trimmers, brushcutters, blowers and much more! This means that when you buy one of the STARTER KITS, you get a high-performance battery, but also the freedom to use it in different applications.
