

LITHIUM-ION BATTERY 20V - 5AH VIBCBL205A

With a Designed in Portugal quality mark, this battery is common to the various machines in VITO's EGO range, allowing it to be interchanged between different construction, bricolage, agricultural and garden equipment, optimising use and making the user's job easier. The non-slip rubber base offers greater safety during handling, even on uneven or dirty surfaces. Compact and lightweight, this battery is equipped with advanced lithium-ion technology, which ensures resistance to battery damage, allowing for consistent performance and a long service life, even under demanding conditions of use. In addition, the absence of the memory effect allows partial recharges without compromising the battery's total capacity, eliminating the common limitations of conventional batteries.

Key features

- > No memory effect;
- > Charge level test button;
- > Compact, autonomy and resistant;

Specifications

Amps	5.0 Ah
Charge level indicator button	Yes
LED light displays the current battery status	Yes
Range	20 V
Without memory effect	Yes
