

20V

BATTERY 20V 8AH 21700

VIBCBL208B

This battery is characterised by its 21700 cell composition, which guarantees greater autonomy and performance for various machines. This way, it optimises the power of the equipment, providing superior performance. Interchangeable between the various machines in VITO's 20V range, it can be shared between different construction, DIY, agricultural and garden equipment, promoting practical use and making the user's job easier. Compact and lightweight, this battery is equipped with advanced lithium-ion technology, which ensures resistance to battery damage, allowing for consistent performance and a long service life, even under demanding conditions of use. In addition, the absence of the memory effect allows partial recharges without compromising the battery's total capacity, eliminating the common limitations of conventional batteries.

Key features

- > Composed of 21700 cells that ensure better performance and autonomy;
- > Interchangeable battery between various tools from the 20V range;
- > No memory effect;
- > Charge status test button;
- > Compact, autonomous, and resistant.

Specifications

Amps	8.0 Ah
Range	20 V
Cells	21700
Charge level indicator button	Yes
LED light displays the current battery status	Yes
Without memory effect	Yes
