

MULTISTAGE CENTRIFUGAL PUMP 1100W

VIBCM1100

The 1100W multistage centrifugal pump is designed for applications requiring constant pressure, such as irrigation systems, domestic water boosting and clean water transfer. Its stainless steel and cast iron body, combined with anti-corrosion treatment, ensures durability and reliable performance. Equipped with 4 impellers, it delivers efficient pressure and consistent operation.

Key features

- > Suitable for clean water
- > High pressure performance
- > Durable corrosion-resistant body
- > Ideal for irrigation and boosting
- > Reliable continuous operation

Specifications

Hose connector thread	1", 1"
Max. liquid temperature	35° C
Max. manometric height	48 m
Max. particle size	1,0 mm
Maximum flow rate	5400 L/h
Maximum immersion depth	8 m
Sound power level (LWA)	86 dB
Watertightness	IPX4
Material	Stainless steel and cast iron pump body
Packaging dimensions	449 x 220 x 270 mm
Product weight	13 kg
Size	410 x 185 mm
Weight with packaging	14 kg
Rated power	1100 W
Supply voltage	230 V 50 Hz
