

TILE VIBRATING SUCTION CUP 20V-130MM

VIBCVV20

The vibration is adjustable to six levels, allowing it to adapt to the work to be done and the size of the piece. For ease of use, it guarantees a solid adhesion between the tiles and the surface, preventing excessive build-up of adhesive, contributing to less wasteful, cleaner and more professional work. Lightweight and ergonomic, this model includes a BMC case for easy transport and storage. Practical and completely portable, this machine is compatible with the interchangeable battery from EGO range (2.0 | 4.0 | 6.0 Ah).

Key features

- > Quick and efficient tile laying (+ Productivity);
- > Even tile laying (+ Quality of Finish);
- > Application of materials without air bubbles;
- > Versatile use with different materials;
- > High-capacity suction cup;
- > Easy and intuitive to use.

Specifications

Maximum weight supported by the suction cup	50 Kg
Motor type	Carbon brushes
No-load Speed	0 - 7500 rpm
Speed setting levels	6
Suction cup diameter	130 mm
Voltage	20V
