

PRO 1/4" BIT SCREWDRIVER

VIBIC14

This tool is designed to ensure practical and comfortable use in 1/4" bit applications. The bi-material, non-slip handle provides a firm grip and superior traction, while the ergonomic triangular shape reduces fatigue and enhances comfort during extended use. The chrome vanadium steel shaft offers high strength and durability, making it ideal for demanding tasks.

Key features

- > Bi-material, non-slip handle for enhanced safety and comfort during use;
- > Ergonomic triangular shape that reduces fatigue and improves control;
- > Compatible with 1/4" bits, suitable for various screwdriving tasks;
- > Chrome vanadium steel shaft ensuring strength, safety, and durability.
