

TWIST WOOD DRILL BIT

VIBMH10230

The VITO wood auger bit with hex shank is designed for efficient and precise drilling in various types of wood — from softwoods to hardwoods. Featuring a deep spiral design and threaded tip, it ensures automatic feed and effective chip removal, reducing effort and improving productivity. The hex shank provides firm and secure grip in the chuck, preventing slippage even during intensive work. Compliant with DIN 965 standard, it guarantees high manufacturing quality, durability and compatibility with drills and screwdrivers. Ideal for woodworking, carpentry and construction, delivering professional performance with clean and accurate holes, even at great depths.

Key features

- > Hex shank for better stability and secure grip.
- > Spiral design improves chip removal efficiency.
- > Threaded tip for automatic feed and faster drilling.
- > DIN 965 compliant for precision and reliability.
- > Suitable for soft, hard and laminated wood.
- > Compatible with drills and power screwdrivers.
- > Professional performance for woodworking and construction.

Specifications

Diameter	10 mm
Length	230 mm
Maximum cutting length	155 mm
Standards	DIN 965
Suitable for	Wood
