

5 L LASER LEVEL BATTERY 3.7V 4AH VIBNLTT5L

This battery is a practical and efficient solution to ensure the continuous operation of measuring equipment in construction, installation, and alignment work. Featuring no memory effect technology, it provides flexible charging without compromising performance over time, making it ideal for frequent professional use. Additionally, the USB-C connection simplifies the charging process, offering greater convenience and compatibility with common power sources. Its capacity and autonomy allow the laser level to operate for extended periods, contributing to increased productivity on-site. The balanced charging time also ensures a quick return to work whenever needed. Designed for integration with specific equipment, this battery is a reliable choice for professionals who require consistent performance in demanding environments.

Key features

- > Increased on-site autonomy, allowing prolonged use;
- > Practical and versatile charging via USB-C connection;
- > Flexible charging without memory effect;
- > Reduced downtime thanks to balanced charging time;
- > Consistent performance in frequent professional use;
- > Easy integration with compatible equipment for immediate use.

Specifications

Amps	4.0 Ah
Range	3.7 V
Charging time	4h
Charging voltage	5 V
Without memory effect	Yes
Connection Type	USB-C
