

WAREHOUSE COAT 65/35 POLYESTER COTTON

VIBTAMCL

The work coat is designed for professional use in industrial, technical, laboratory, logistics and maintenance environments. Made from 240 g/m² fabric with a composition of 65% polyester and 35% cotton, it provides good wear resistance and dimensional stability for frequent use. It features a front closure with three buttons, allowing easy and practical wearing during daily tasks. The functional design includes three front pockets suitable for storing tools, utensils or everyday accessories. Suitable for professionals who require practical and durable garment protection during work activities.
