

MOBILE WORKBENCH 182CM

VIBTM182

This workbench has 15 drawers of various sizes, an upper cabinet with 3 doors and a pegboard for hanging tools, offering various storage solutions. In addition, the drawers have a soft-close feature to protect them, while the cabinet doors have shock absorbers to reinforce their durability. The lacquered finish provides resistance to stains and scratches and is suitable for intensive everyday work. In addition, the wooden worktop provides a stable surface for carrying out tasks. With a structure that can hold up to 500kg, this organisational solution is characterised by its mobility, as it has a side handle and 4 wheels that make it easy and practical to move around. The cabinets also feature a key locking system that guarantees the tools are safe and protected.

Key features
