

## WORKBENCH WITH PEGBOARD AND CABINET

### VIBTPA

VITO's workbench (VIBTPA), made from high-quality steel and with a maximum load capacity of up to 500kg, is a practical, sturdy, and organised work solution. The workbench has a pegboard, ideal for organising tools, and a cabinet equipped with two doors. The worktop is made from treated wood, offering a stable and sturdy surface for a wide variety of tasks. The workbench includes three additional drawers and two lower shelves, offering various storage options. The cabinet doors have magnetic catches, ensuring easy opening and safety when storing equipment. In addition, the adjustable feet allow the workbench to be levelled on different surfaces, offering greater stability.

### Key features

- > **Durability:** Made from 1.5mm thick steel, this workbench has been developed to withstand demanding working environments, guaranteeing a long service life and resistance to wear and tear;
- > **Ample storage space:** With a spacious upper cabinet with two doors, three drawers and two lower shelves, organising tools and materials will be simple and effective, keeping the workspace tidy at all times;
- > **Sturdy work surface:** The large 36mm thick treated wood worktop offers a sturdy, stable and generous work area, perfect for carrying out the most diverse tasks;
- > **High capacity:** This workbench can hold up to 500kg, allowing you to work with confidence on projects that require the use of heavy tools and bulky materials;
- > **Day-to-day practicality:** The 1200 x 600 mm pegboard makes it easy to organise the tools you use most, while the doors with magnetic locks provide quick and safe access to the cabinet.
