

PETROL WOOD SHREDDER 15HP VIBTRG15

With a power of 15HP/11.2kW, combined with 3 shredding blades, this model offers superior shredding capacity, suitable for large work volumes. Equipped with the electric start system, the start-up operation to begin work is quicker and easier to carry out. It has an emergency button to quickly stop the machine in unexpected situations, guaranteeing the user's safety. It also has two wheels for easier movement and a support foot to stabilise the shredder during work.

Key features

- > Electric starter;
- > Emergency stop switch;
- > Pneumatic wheels;
- > 3 Shredder blades;
- > Adjustable outlet;
- > Electric starter.

Specifications
