

## HOLSTER WITH 3 FELLING WEDGES VICC3CA

Ideal for intensive work with chainsaws, this holster made of carbon fibre fabric stands out for its lightness and high durability, allowing for comfortable and resistant transport during demanding tasks. The ABS plastic felling wedges come in 3 sizes: S (13.9 cm), M (20.3 cm), and L (25.4 cm), characterised by their ability to adapt to different trunk diameters and types of cuts. Each wedge features anti-slip teeth and double-sided longitudinal grooves, oriented towards the trunk, allowing you to carefully lift one side of the tree, reduce tension and guide the direction of the fall with complete control. These teeth and grooves not only improve the wedge's grip on the tree, but also ensure greater pressure, promoting safe, efficient advancement with the least possible effort. In addition, the holster includes a velcro strap, an opening to attach it to a work belt, front elastic bands for additional organisation, and two side compartments, allowing for practical and convenient transport of wedges and small tools.

### Key features

- > Holster made of carbon fibre fabric characterised by its lightness and durability;
- > Versatility guaranteed by the 3 wedges with different sizes;
- > ABS wedges with grooves and anti-slip teeth for greater control and grip;
- > Opening with velcro strap for practical attachment to a work belt;
- > Organisation ensured by elastic bands and additional compartments.
