

SCREW EXTRACTORS SET

VICEP6P

Screw extractor set designed for removing broken, damaged or stripped screws in maintenance, mechanical and repair applications. Manufactured from chrome molybdenum steel (CR-MO), the extractors provide high mechanical strength and durability for demanding tasks. The set consists of 6 pieces: 1 tap wrench and 5 screw extractors suitable for M3-M6, M6-M8, M8-M11, M11-M14 and M14-M18 screws, covering a wide range of applications. Suitable for workshops, automotive maintenance, industrial repair and general mechanical work.

Key features

- > Chrome molybdenum CR-MO steel construction
- > Designed for removing broken or damaged screws
- > Set includes 1 tap wrench and 5 screw extractors
- > Extractors for M3-M6, M6-M8, M8-M11, M11-M14 and M14-M18
- > Suitable for mechanical maintenance and repair

Specifications

Available sizes	Nº1 (M3-M6 2~3,5mm) / Nº2 (M6-M8 3~4,5mm) / Nº3 (M8-M11 4,5~6mm) / Nº4 (M11-M14)
Dimensions	M3-M6: 3x52x15x3mm / M6-M8: 4x58x20x3,5mm / M8-M11: 5x66x25x4mm / M11-M14: 6,5xm
Material	Chromium-molybdenum steel (CR-MO)

Package Contents

1 tap wrench (M3-M12 - 1/16" - 1/2")
5 screw extractors: M3-M6
M6-M8
M8-M11
M11-M14
M14-M18.
