

## DRILL PRESS WITH VARIATOR 750W - 16MM

### VIEFCV750

VITO's drill press with variator (VIEFC750) is suitable for drilling in a variety of materials, such as metal, wood, plastics, etc. Its ability to operate at low or high speed is ideal for drilling hard materials such as metal or softer materials such as wood. This equipment includes a sturdy base, guaranteeing maximum precision during drilling. The manual speed variator allows you to easily adjust the speed between 550 and 2500rpm, while the digital display shows the rotation in real time, providing precise control that can be adapted to the needs of each task. The 750W motor gives you the necessary power for the most demanding jobs. In addition, the tiltable work table makes it easy to drill holes at various angles, making it versatile for the most demanding applications and tasks. For added safety, this device is equipped with a safety switch on the drill press head.

#### Key features

- > **Precise control:** The digital display allows the speed to be monitored in real time, which enables better control during work;
- > **Stability and security:** The base offers great stability, ensuring precise drilling. Besides, the tiltable work table makes it easy to drill at different angles;
- > **Adjustable speed:** Variable between 550 and 2500 revolutions per minute;
- > **Precise drilling:** The adjustable depth stop allows you to control the depth of the hole to be drilled quickly and precisely;
- > **Compatibility:** Works with all common drill bits (MT2 holder).

#### Specifications

Chuck housing	<b>B16</b>
Chuck maximum capacity	<b>16 mm</b>
Distance between chuck and column	<b>162.5 mm</b>
Duty cycle	<b>S2 (30) min</b>
Maximum working height	<b>630 mm</b>
No-load Speed	<b>550 - 2500 rpm</b>
Sound power level (LWA)	<b>84 dB</b>
Steel drilling	<b>65 mm</b>
Support base dimensions	<b>420 x 250 mm</b>
Timing belt	<b>10x980La (x1)</b>
Variable speed	<b>Yes</b>
V-belt cover with safety switch	<b>Yes</b>
Wood drilling	<b>65 mm</b>
Work surface dimensions	<b>250 x 250 mm</b>
Work surface tilt	<b>45° / 0° / 45°</b>
Digital display	<b>Yes</b>
Rated power	<b>750 W</b>
