

SET OF 2 FILTERS ABEK1P3 VIF757ABEK1P3

This pack of ABEK1P3 R D replacement filter cartridges is designed for compatible respirators, allowing worn filters to be replaced while maintaining respiratory protection performance. The filters provide protection against organic gases and vapours with boiling points above 65 °C, inorganic gases and vapours, sulphur dioxide and other acidic gases and vapours (pH below 7), together with 99.95% particle filtration efficiency for demanding professional applications. Certified to EN 14387:2004+A1:2008, they comply with European requirements for combined gas, vapour and particle filters.

Key features

- > Certified to EN 14387:2004+A1:2008
- > ABEK1P3 R D filter class
- > Protection against organic gases and vapours
- > Protection against inorganic gases and vapours
- > Protection against sulphur dioxide and acidic gases
- > 99.95% particle filtration efficiency
- > Pack of 2 filter cartridges
- > Quick and easy replacement
- > Ideal for professional applications

Specifications

Certification	EN 14387:2004+A1:2008
Filter class	ABEK1P3 R D
Organic gases and vapours boiling point	>65°
