

MANURE FORK WITH WOODEN HANDLE

VIFD4CM

Wooden handle pitchfork designed for handling and moving loose materials, suitable for agriculture, gardening and outdoor maintenance. It allows lifting, turning and transporting hay, straw, plant residues, compost and other organic materials efficiently. Made from tempered steel, it provides strong wear resistance and durability for frequent use. The wooden handle offers comfortable grip and good control during operation, supporting stable and safe handling. Available in different sizes and weights, it suits a wide range of applications, from lighter tasks to more demanding agricultural and green area work.

Key features

- > Tempered steel for durability and wear resistance;
- > Wooden handle for comfortable grip and control;
- > Suitable for hay, straw and plant residues;
- > Ideal for agricultural and gardening use;
- > Available in multiple sizes and weights.
