

BOOSTER PUMP 800W VIGP800

The VITO booster pump (VIGP800) is the ideal solution for those seeking efficiency and practicality in water pumping. With a robust power of 800W, this pressure group is designed to deliver exceptional performance, allowing a maximum flow rate of 3,200 L/h. Its 24-liter tank, with anti-corrosion treatment, ensures durability and resistance, making it perfect for various applications. Capable of transporting fluids at temperatures of up to 35°C and withstanding a maximum pressure of 3.8 bar, the VITO (VIGP800) is the ideal choice for powering washing machines, sanitary tanks, and irrigation systems in gardens and vegetable patches. Its versatile and efficient design provides fast and reliable operation, effectively meeting your needs.

Key features

- > Power: 800W for optimized performance.
- > 24L Tank: Anti-corrosion treatment for greater durability.
- > Maximum Flow Rate: Up to 3,200 L/h, ideal for various applications.
- > Transport Temperature: Supports fluids up to 35°C.
- > Maximum Pressure: Up to 3.8 bar, ensuring efficiency in supply.

Specifications

Anti-rust treatment	Yes
Body	Cast iron
Dimensions	265 x 500 x 560 mm
Hose connector thread	1"
Max. liquid temperature	35° C
Max. manometric height	38 m
Max. particle size	1,0 mm
Maximum flow rate	3200 L/h
Maximum immersion depth	8 m
Packaging dimensions	525 x 300 x 570 mm
Pressure	1,5~3,8 bar
Product weight	11,7 kg
Rated power	800 W
Sound power level (LWA)	86 dB
Supply voltage	230 V 50 Hz
Tanks capacity	24 L
Watertightness	IPX8
Weight with packaging	13,4 kg
