

WATER-STOP HOSE CONNECTOR VIJR1258S

STOP quick connector with quick coupling for 1/2" - 5/8" hoses. This connector features a flow blocker, reducing water spillage when removing the nozzle, spray gun, or other accessories from the hose. Ideal for irrigation systems, providing an efficient and secure connection, allowing quick accessory changes without water waste. Easy to use and install, ensuring convenience in gardening tasks.

Key features

> Flow blocker: Reduces water spillage when removing nozzles, spray guns, or other accessories, preventing waste.
