

DISPOSABLE NATURAL LATEX GLOVE - 10 UN

VILL10

The disposable natural latex glove is designed for applications requiring light protection, high tactile sensitivity and comfort during short periods of use. Made from natural latex, it offers excellent elasticity and hand fit, allowing precise movements and effective control in detailed tasks. The powder-free finish reduces the risk of contamination and makes the glove suitable for environments with higher hygiene requirements. Single-use and featuring a rolled cuff, it ensures quick and secure donning, making it suitable for general work, light maintenance and support operations.

Key features
