

PETROL WATER PUMP 1” VIMB12TA

This machine is suitable for irrigation activities in gardens, vegetable patches and for transferring clean water in small volumes. Equipped with a 2-stroke engine and a rotation of 7000 rpm, the water pump offers superior performance with a maximum flow rate of 6,500 L/h and is capable of satisfying a wide range of pumping needs. With a maximum suction height of 8m and a pumping capacity of up to 30m, this model offers great flexibility and efficiency in different environments. Compact and easy to transport, it is perfect for those who need a practical and powerful solution without compromising on space and convenience.

Key features

- > **Efficiency and versatility:** It enables various clean water pumping tasks to be carried out;
- > **Compact Design:** Mobility guaranteed by the smaller format that combines practicality and flexibility.

Specifications

Autonomy	1,5 h
Compact, easy to transport	Yes
Engine	2-Stroke combustion
Engine displacement	43 cc
Fuel	Mixture - 1: 40 ratio
Fuel tank capacity	1 L
Max. particle size	3,0 mm
Maximum flow rate	6500 L/h
Maximum lifting height	30 m
Maximum suction height	8 m
Rotation speed	7000 rpm
Sound power level (LWA)	89.7 dB
Dimensions	290 x 390 x 345 mm
Product weight	7,5 Kg
Weight with packaging	8,8 Kg
Outlet thread	1” / 25 mm
Packaging dimensions	405 x 310 x 350 mm
Rated power	1.5 cv / 1,1 kW
Suitable for	Clean water

Package Contents

Filter
Spark plug wrench
Hose connectors with seals (x2)
Clamps (x3)
Container for mixture.
