

PETROL WATER PUMP 1.5" VIMB15A

With a maximum pumping height of 20m, this water pump is ideal for applications that require greater reach and power, such as large-scale irrigation, drainage, and clean water supply in bigger systems. Equipped with a 4-stroke engine and a rotation of 3,600 rpm, this model offers a maximum flow rate of 10,000 L/h, providing great water displacement capacity. The efficient design of this machine guarantees a stable and long-lasting operation.

Key features

- > **Efficiency and versatility:** It can be used to pump various volumes of clean water;
- > **Safe and Functional Design:** Besides serving as a transport strap, this structure is designed to protect the machine from damage and prevent possible injuries to the user.

Specifications

Autonomy	2 h
Depth	6 m
Dimensions	420 x 320 x 330 mm
Engine	4-stroke combustion
Engine displacement	105 cc
Fuel	Unleaded petrol
Fuel tank capacity	1,4 L
Max. particle size	4,0 mm
Maximum flow rate	10000 L/h
Maximum lifting height	20 m
Packaging dimensions	430 x 350 x 365 mm
Product weight	15 Kg
Rated power	3 cv / 2,2 kW
Rotation speed	3600 rpm
Sound power level (LWA)	110 dB
Suitable for	Clean water
Threads	1,5" / 40 mm
Weight with packaging	16,7 kg

Package Contents

Filter
Spark plug wrench
Hose connectors with seals (x2)
Clamps (x3).
