

ELECTRIC GRAIN MILL 50L 1300W

VIME50

With a capacity of 50 litres, this equipment offers high-quality performance, meeting the needs of bulk grinding. Equipped with 5 sieves (2/3/4/6/8 mm), it allows you to adjust the grind as required, offering options for grinding grains in different thicknesses, from coarse to fine. The intuitive design allows simple one-button operation and supports continuous supply. Safety Tips: - Before using the mill, make sure the grains are properly dried. - Avoid operating in environments with high humidity or flammable materials. - Check and clean the sieves periodically to ensure optimum machine operation.

Key features

> **Excellent Capacity and Efficiency: With a capacity of up to 50 litres,it processes large quantities of grain quickly, increasing productivity.**
> **Customised Grinding Options: Equipped with 5 sieves (2/3/4/6/8 mm), it offers customised grinding.**
> **Ideal for grinding grains, spices, animal feed and more.**
> **Ease of Use.**

Specifications

Collection bucket capacity	**50 L**
Grinding capacity	**400 kg/h**
Grinding diameter	**2,3,4,6 e 8mm**
Hopper capacity	**13.7 L**
Number of sieves	**5**
Motor type	**Carbon brushes**
No-load Speed	**19000 rpm**
Sound power level (LWA)	**60 dB**
Rated power	**1300 W**
Supply voltage	**230 V AC 50 Hz**
