

FURROW OPENER FOR TILLERS VIME7 VITO

VIME7.17

The Furrow opener for tiller is compatible with VITO models VIME7, VIME7A, VIMETD7, VIMETD7A and VIMEDTD7A. This accessory is designed to facilitate soil preparation, making the process of opening furrows for planting faster and more effective. Made with high-resistance materials, it guarantees durability in intensive work conditions. Perfect for farmers and gardeners looking to improve efficiency when planting seeds and plants, especially in compacted land. Easy to attach and use, it is an indispensable tool for optimizing work with VITO motor tillers.
