HIGH-PRESSURE WASHER WR2 LITE 180

VIML180WR2

The WR2 offers high power and pressure, making it ideal for more demanding cleaning tasks in domestic and semi-professional environments. The 2100W aluminium brushed motor ensures consistent performance, making it possible to remove the most stubborn dirt from pavements, walls, vehicles, tools and outdoor structures. With a maximum pressure of 180 bar and an operating flow rate of 5.6 L/min, this machine delivers a more powerful jet, reducing the time needed to complete deep cleaning tasks. In addition, the aluminium head and body enhance durability, while the controlled sound level provides greater comfort during prolonged use. The 5-metre hose and adjustable jet allow you to adapt the work to different surfaces, ensuring versatility in multiple contexts. The integration of the automatic stop system increases safety and helps to extend the service life of internal components.
