

WR

HIGH-PRESSURE WASHER WITH HOSE REEL WR3 LITE 225

VIML225WR3

The WR3 enhances cleaning performance, standing out for its pressure and integrated hose reel, which facilitates storage and extends the hose's service life. With a 2500W aluminium brushed motor, it ensures constant power to remove stubborn dirt from pavements, machinery, façades, and vehicles. The maximum pressure of 225 bar and operating flow rate of 6 L/min ensure a powerful and stable jet, suitable for users who demand speed and consistent results. In addition, the aluminium construction offers excellent wear resistance and adequate thermal circulation, contributing to the durability of the equipment. The adjustable jet and automatic stop system increase control during operation, while the carrying handle facilitates mobility.

Key features

- > 225 bar pressure for deep and intensive cleaning;
- > Integrated reel that protects and organises the hose;
- > 2500W motor, ensuring continuous high performance;
- > Optimised flow rate for effective build-up removal;
- > Strength and durability ensured by robust aluminium construction;
- > Adjustable jet for adaptation to different tasks;
- > Ideal for garages, workshops, and outdoor maintenance.

Specifications

Aluminium carbon brush motor	Yes
Automatic stop and adjustable jet	Yes
Carrying handle	Yes
Flow rate	6 L/min
Head	Aluminium
Hose	PVC (5m)
Max. inlet water pressure	7 bar
Maximum flow rate	8,5 L/min
Maximum pressure	225 bar
Operating pressure	160 bar
Power cord	5 m
Sound power level (LWA)	92 dB
Vibration	1,5 m/s²
Body	Aluminium
IP code	IPX5
Operating temperature	5 - 50 °C
Packaging dimensions	355 x 421 x 911 mm
Product weight	11 Kg
Rated power	2500 W
Supply voltage	230 V AC 50 Hz

Package Contents

Gun
Lance with spray nozzle
High-pressure hose
Holder for set (gun + lance)
Holder for power cable
Holder for accessories (cleaning needle, foam nozzle)
Foam nozzle
Water inlet filter
Fixing screws set.
