

WR

HIGH-PRESSURE WASHER WITH HOSE REEL WR4 225

VIML225WR4

With a 2500W induction motor, this machine ensures stable torque, greater robustness, and quieter operation, suitable for work environments where acoustic comfort and reliability are essential, such as workshops and maintenance companies. The 10-metre steel braided hose provides greater reach and mechanical strength, minimising wear and tear and allowing you to work in large areas without moving the equipment. With a pressure of 225 bar and an operating flow rate of 7 L/min, the dense and consistent jet effectively removes dirt from large or heavily contaminated surfaces. The integrated reel ensures neat storage, while the aluminium structure reinforces the durability and protection of the internal components. In addition, this pressure washer includes 6 spray nozzles with various functions and different spray angles, allowing for quick and convenient adjustment of the spray to meet a variety of cleaning needs. The TPE rubber wheels ensure better traction, making it easier to move the unit even on uneven or slippery surfaces.

Key features

- > 2500W induction motor for continuous use;
- > Highly resistant 10-metre hose;
- > Reel that extends the service life of the hose;
- > 225 bar pressure, ideal for professional maintenance;
- > Quieter operation, promoting acoustic comfort;
- > Excellent performance on large surfaces;
- > Sturdy construction for regular use;
- > Versatility ensured by the 6 spray nozzles;
- > TPE rubber wheels, facilitating mobility.

Specifications

Automatic stop and adjustable jet	Yes
Carrying handle	Yes
Engine	Induction (Aluminium)
Flow rate	7 L/min
Head	Aluminium
Hose	Armed steel (10m)
Max. inlet water pressure	7 bar
Maximum flow rate	7,7 L/min
Maximum pressure	225 bar
Operating pressure	160 bar
Power cord	5 m
Sound power level (LWA)	89dB
Vibration	1,0 m/s²
Body	Aluminium
IP code	IPX5
Operating temperature	5 - 50 °C
Packaging dimensions	395 x 410 x 897 mm
Product weight	24,8 Kg

Package Contents

Gun
Lance
High-pressure hose
Holder for set (gun + lance)
Holder for power cable + cleaning needle
Holder for turbo/rotary nozzle
Lower holders (2)
Spray nozzles (6)
Adapter for accessories
Water inlet filter
Fixing screws set.

Rated power	2500 W
Supply voltage	230 V AC 50 Hz
