

## NYLON BAG WITH ELECTRICIAN TOOLS - 12 PIECES

### VIMNFE

The Nylon Tool Bag for Electricians (12 pieces) is ideal for those seeking safety and convenience in electrical work. Equipped with VDE insulation, these tools can withstand up to 1000V, ensuring full protection during use. The kit includes 3 pliers, 3 screwdrivers, 1 voltage tester, 1 measuring tape, 3 insulating tapes, and 1 digital multimeter. With ergonomic and non-slip handles, they fit perfectly in the user's hand, providing comfort and precision. The nylon bag, with an adjustable strap, makes transport and organization easy, making it an indispensable choice for professional and amateur electricians alike.

### Key features

- > Complete set: Includes 12 essential pieces for electrical work, with high-quality tools.
